Steamer-tug Ruthof

A ship very interesting for model-builders is the Wheel-steamer Ruthof of 1923. He is the last of his type and ran at the city Ersekcsanad in Hungary in 1944 on a mine and sank.

Only 1958, the wreck was rescued by the Hungarians, repair and under the new name "Ersekcsanad" again taken in operation in 1979, it then succeeded the study group shipping-museum Regensburg e.V., this meanwhile became obsolete and out of service put Navigate to acquire to renovate and 1983 on the Donau near Regensburg as museum.
